1. Understand the application

The application that has been developed is ideal for users who need to manage a big number of scientific publications. This application has the main goal to organize a big amount of scientific publications.

To run the application, open the executable file.

1.1 About this manual

This manual contains everything you need to know about the application.

This is divided in sections where it will be explained all functionalities and characteristics of software so you can understand how it works. We recommend that you have the application open while reading this manual.

1. In case you need to read a designed section click with the left mouse key in the section desired in the index.
2. In case you need to read a designed section, click with the left mouse button in that section on the index.
3. In case you need to locate some word or perform a search in this manual do CTRL+F.

1.2 Main Functionalities

In this application you can do the following:

- **Edit publications** – where you can remove or add publications.
- **Display publications** – where you can select the publications you want to visualize.
- **Manage selections** – where you can create, associate publications to selections, delete and visualize selections.

These are the main functionalities for the software to function minimally.

2. Minimum system requirements

To run this program it's necessary to have a Windows operative system and a PDF reader installed.

3. How to utilize the application.

In this section we will present step by step how you can utilize all the functionalities of this application.

3.1. Main Menu

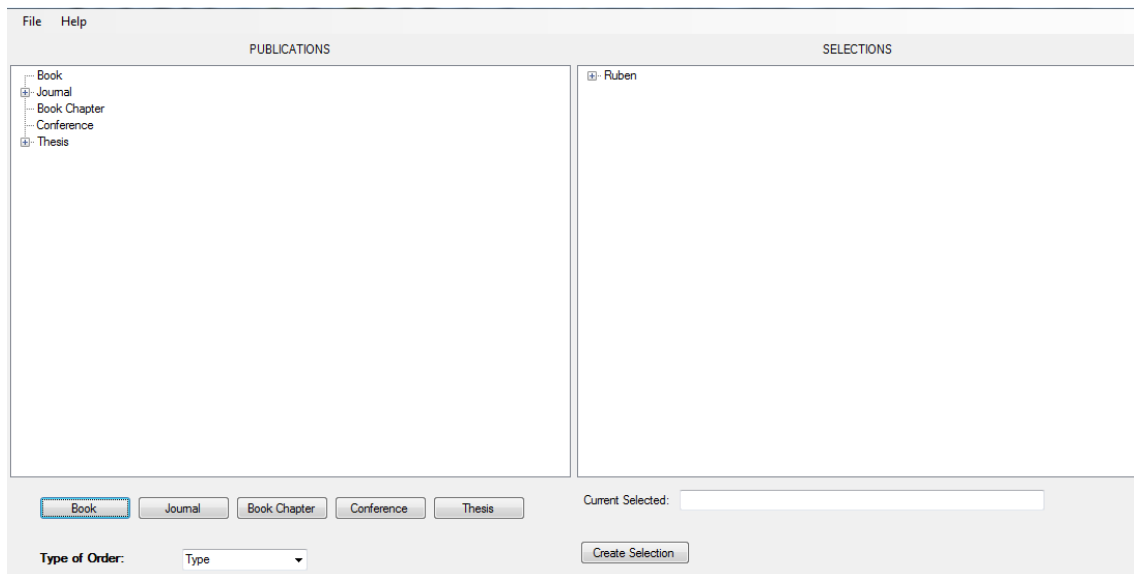

Figure 1 – Main Menu.

3.2. Edit publication

3.2.1. Add publication

- You can add a scientific publication selecting the type of publication you. To do this simply click with the right mouse button on the buttons: "Book", "Book Chapter", "Thesis", "Conference", "Journal".

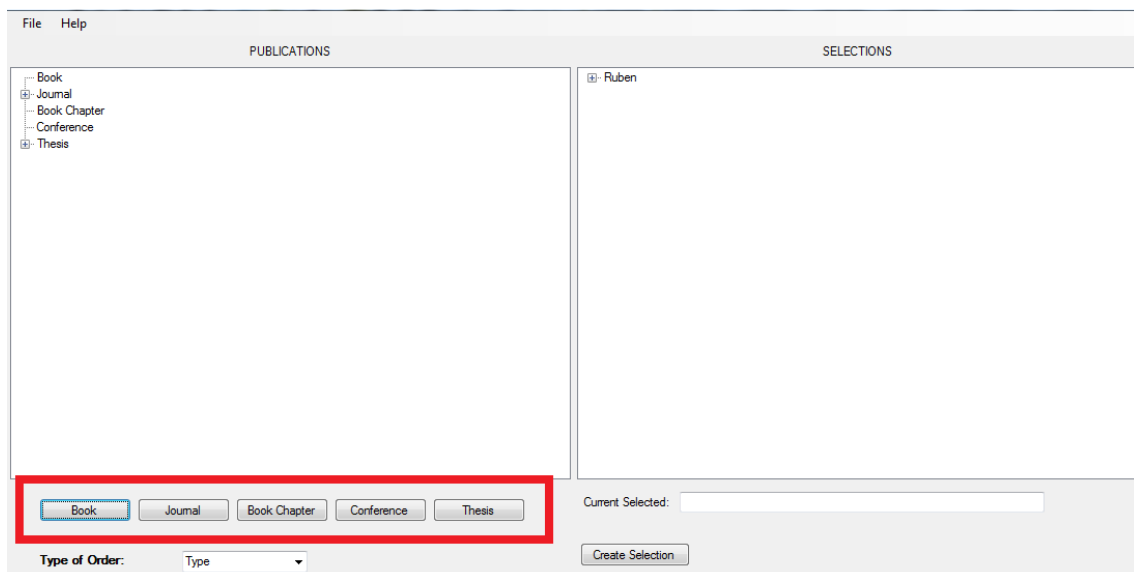

Figure 2 – Main menu, Inside the red rectangle are the buttons previously referred.

3.2.1.1 Add a publication of the type ("book")

- In case you want to add a publication of the type("Book"), button "Book".
- After doing the previous step will appear on the screen the following window:

Author (First Name;Surname)

Title

Edition

Publisher

Series

Year

ISBN

Load PDF

Remove Author

OK Cancel

Figure3 –add_book window.

- In this window is necessary to write the name of the book author ("Author" field). Insert first name and last separated by ";".
- After having written the name, click with the left mouse button on the button "add Author". Always do this step in order to add more than one author.

- In case you want to remove an author you added previously select the author that you want to remove and click with the left mouse button then “Remove”.

The screenshot shows a window titled 'add_book' with several input fields on the left: 'Author (First Name;Surname)', 'Title', 'Edition', 'Publisher', 'Series', 'Year', and 'ISBN'. Below these fields is a 'Load PDF' button. On the right side, there is a list box containing three entries: 'ada,qee', 'ada,ada', and 'ada,qee'. A double-headed vertical arrow is positioned to the right of the list box. Below the list box is a button labeled 'Remove Author'. At the bottom of the window are 'OK' and 'Cancel' buttons.

Figure4 –add_book window – Remove a book author

- After clicking will appear a message asking to confirm the removal, where you click “Yes” in case you want to remove the author or “No” in case you don’t want.Note:In another operative system the “Yes” and “No” will appear in the respective language. We will be working on a English native language, but the image above was generated in a Portuguese native language computer.

Figure5 – Confirming the removal of the book author

- To add a title to the book fill the field “Title”.
- To add the edition to the book fill the field “Edition”.
- To add the editor/publisher to the book fill the field “Publisher”.
- To add the year to the book fill the field “Year”.
- To add the ISBN to the book fill the field “ISBN”.
- To load the pdf of the scientific publication click in the button “Load PDF”.
- After clicking the button previously said will pop up a window similar to the following, where you can load the PDF file correspondent to the publication. This one has to be in a folder in your computer.

Figure 6 – Window to load a PDF of a publication of type book

- To conclude this process of adding a publication of type book simply click with the left mouse button in the dialog box saying “OK”.
- If at any moment you wish to close this window you can do it by clicking in the cross in the upper right corner or pressing “ESC” on the keyboard.

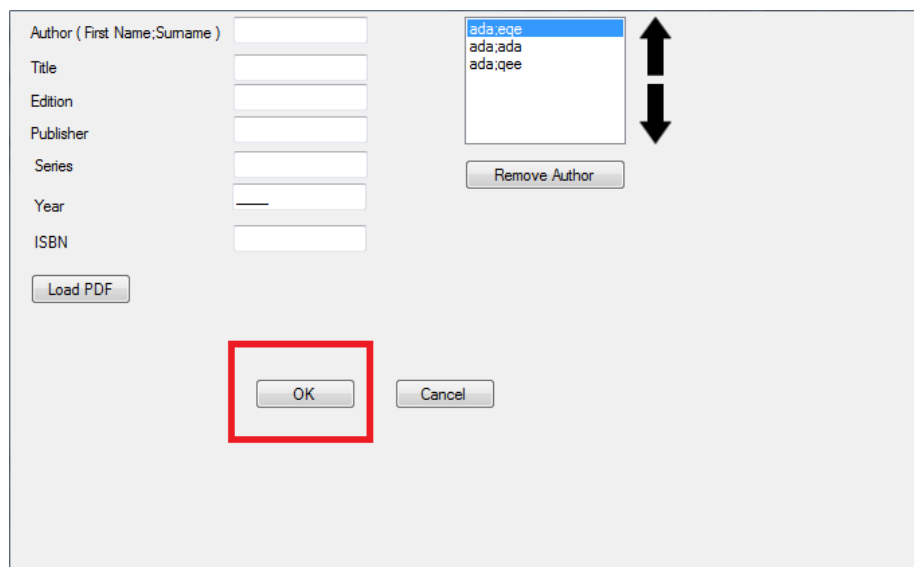

Figure7 – add_book window, “OK” button

- In case you don't fill all fields a window pops up obliging you to fill all fields that haven't yet been filled. (red fields)

The screenshot shows a form with the following elements:

- Labels in red text: Author (First Name;Surname), Title, Edition, Publisher, Series, Year, ISBN.
- Input fields: Seven white rectangular boxes corresponding to the red labels.
- Buttons: "Load PDF" (red text), "Remove Author" (grey text), "OK" (blue text), and "Cancel" (grey text).
- Message: "Fill the red fields please!" in red text.
- Visual indicator: A large black double-headed vertical arrow pointing up and down, positioned to the right of the "Remove Author" button.

Figure7 – Obligated fields of publication of type "book" not filled.

3.2.1.2 Add publication of type ("Book Chapter")

- In case you want to add a publication of type ("Book Chapter"), click with the left mouse button on the button "Book".
- Having done the previous step will pop up the following message:

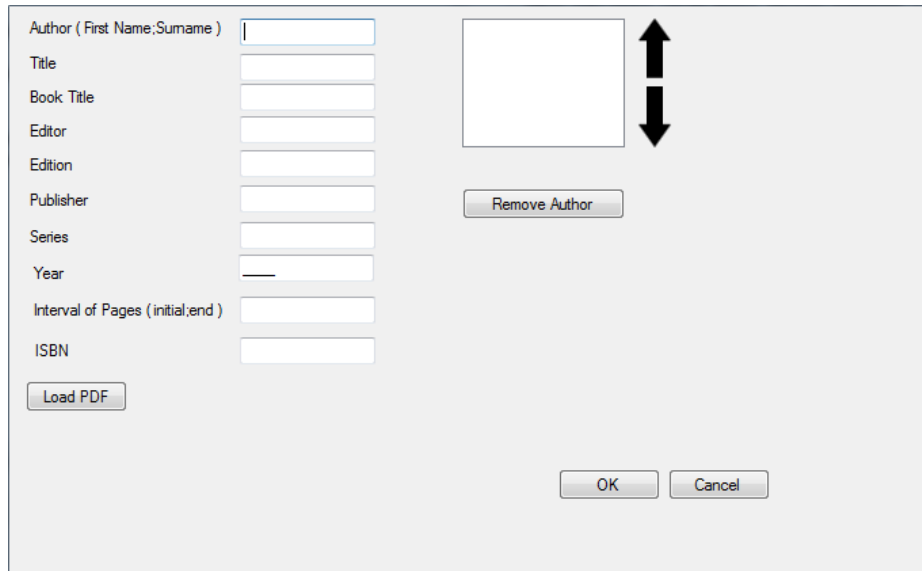

Figure8 –add_book_chapter window

- In this window is necessary that you insert the name of the author of the book ("Author" field).
- Insert the first name and the last name separated by ";".
- After writing the name, click with the left mouse button on the button "add Author".
- Repeat the previous steps every time you wish to add an author.
- In case you want to remove an author added previously select the author you wish to remove and click on "Remove".

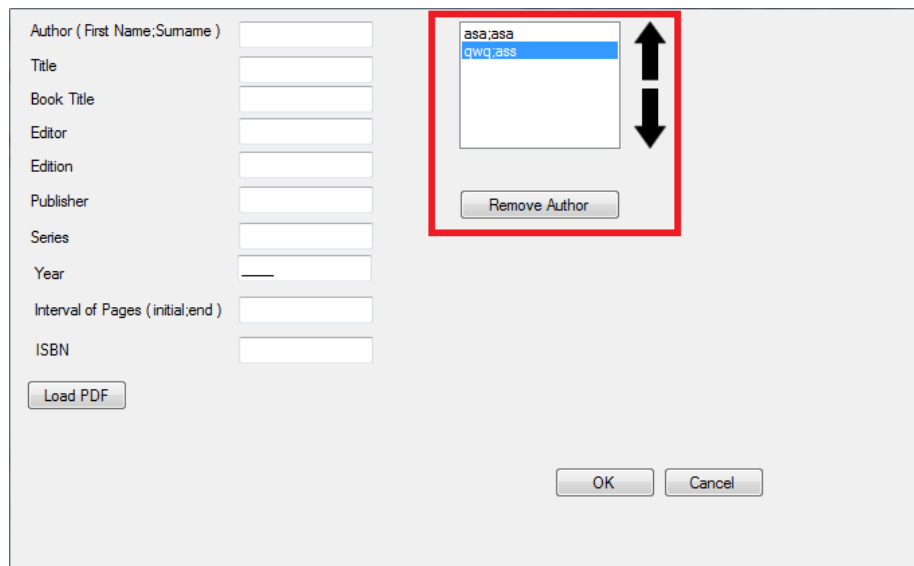

Figure9 –add_book_chapter window, remove a book author

- To add a title to the book fill the field “Title”.
- To add a book title to the book fill the field “Book Title”.
- To add the editor to the book fill the field “Editor”.
- To add the edition to the book fill the field “Edition”.
- To add the publisher to the book fill the field “Publisher”.
- To add the series to the book fill the field “series”.
- To add the year to the book fill the field “Year”.
- To add the interval of pages fill the field “Interval of Pages”. Separate the last and first page with “;”.
- To add the ISBN fill the field “ISBN”.

- Para carregar o PDF da publicação científica clique no botão “Load PDF”.
- Após clicar no botão mencionado anteriormente irá surgir uma janela semelhante à seguinte, onde poderá carregar o ficheiro PDF correspondente à publicação. Este tem que se encontrar em alguma pasta do seu computador.

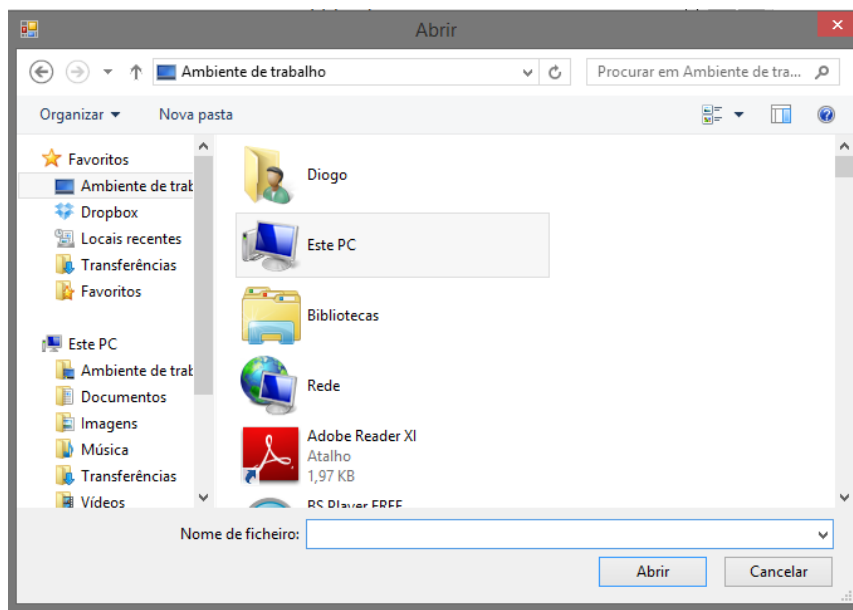

Figure10 – Load PDF window of a publication of type book chapter.

- To conclude this process of adding a publication of type book chapter simply click with the left mouse button in “OK”.
- At any moment you can close this window by clicking in the cross on the upper right corner or pressing “ESC” on the keyboard.

Figure11 – add_book_chapter window, “OK” button.

- In case you don't fill all fields a window pops up with a message that obliges you to fill all fields that haven't yet been filled.

The screenshot shows a data entry form with the following fields and labels:

- Author (First Name;Surname)
- Title
- Book Title
- Editor
- Edition
- Publisher
- Series
- Year
- Interval of Pages (initial,end)
- ISBN

Below the fields are two buttons: "Load PDF" and "Remove Author".

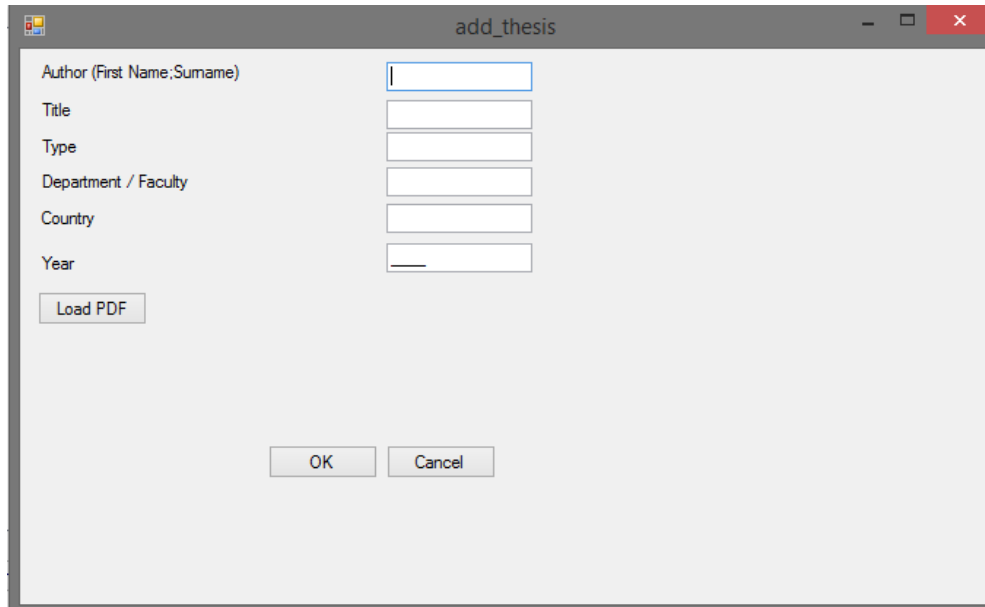

A dropdown menu is open, showing two options: "asa,asa" and "qwg,ass". A double-headed vertical arrow is positioned to the right of the dropdown.

A red message at the bottom of the form reads: "Fill the red fields please!". Below this message are two buttons: "OK" and "Cancel".

Figure12 – Obligatory fields.

3.2.1.3 Add publication of type ("thesis")

- In case you wish to add a publication of type ("thesis") click with the left mouse button in the button "thesis".
- Having done the previous step the following window will appear:

The screenshot shows a window titled "add_thesis". It contains the following elements:

- Text input field: Author (First Name;Surname)
- Text input field: Title
- Text input field: Type
- Text input field: Department / Faculty
- Text input field: Country
- Text input field: Year
- Button: Load PDF
- Buttons: OK, Cancel

Figure13 – add_thesis window

- To add the authors of the thesis fill the field "Author".
- To add the title of the thesis fill the field "Title".
- To add the type of the thesis fill the field "Type".
- To add the department or faculty where the thesis has been written fill the field "Department | Faculty".
- To add the country fill the field "Country".
- To add the year of the thesis fill the field "Year".
- To load the PDF file correspondent to the thesis fill the field "Load PDF".
- After clicking the button previously mentioned will pop up a window like the following, where you can load a PDF file correspondent to the publication. This file must be in a folder on your computer.

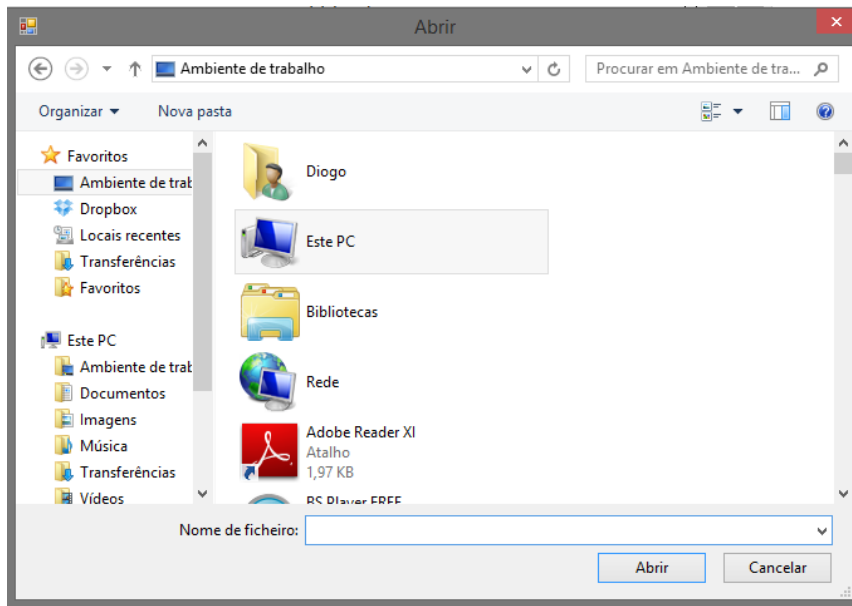

Figure14 – Load PDF window of a publication of type thesis.

- To conclude this process of adding a publication of type thesis simply click with the left mouse button on the button “OK”
- If at any moment you wish to close this window you can do it by clicking on the cross in the upper right corner, or pressing “ESC” in the keyboard or on the button “Cancel”.

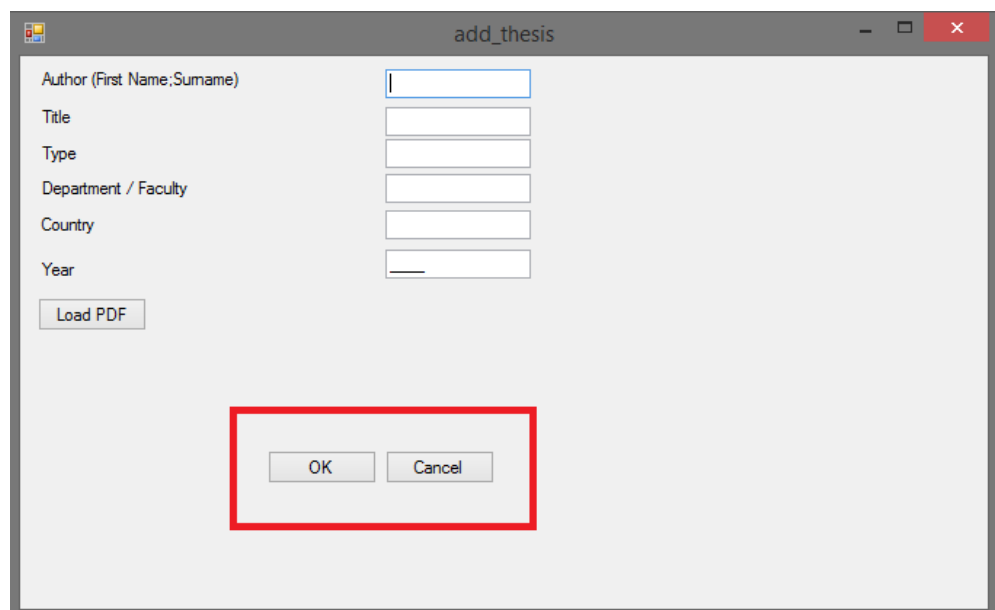

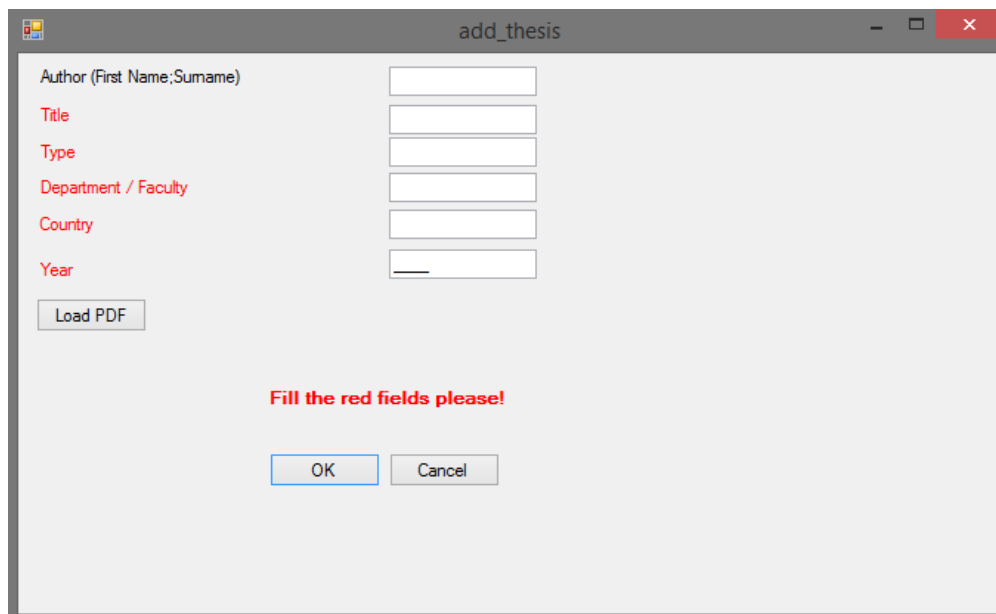

Figure15 –add_thesis window, “OK” button.

- In case you don't fill all fields a window pops up with a message that obliges you to fill all fields that haven't yet been filled.

The screenshot shows a window titled "add_thesis" with a standard Windows-style title bar. Inside the window, there is a form with the following fields and labels:

- Author (First Name;Surname) [text input]
- Title [text input]
- Type [text input]
- Department / Faculty [text input]
- Country [text input]
- Year [text input]

Below the form fields is a button labeled "Load PDF". At the bottom of the window, there is a red text message: "Fill the red fields please!". Below this message are two buttons: "OK" and "Cancel".

Figure16 – Obligatory fields – thesis.

3.2.1.4 Add publication of type ("Conference")

- In case you wish to add a publication of type ("Conference"), click with left mouse button on the button "conference".
- Having done the previous step the following window will pop up:

The screenshot shows a software window titled 'add_conference'. On the left, there is a vertical stack of text input fields: 'Author (First Name;Surname)', 'Title', 'Book Title', 'City', 'Country', 'Date' (with a date format mask), 'Year', and 'Interval of Pages'. Below these fields is a 'Load PDF' button. To the right of the input fields, there are two empty rectangular boxes, each with a 'Remove' button below it. Double-headed vertical arrows are positioned between the two boxes. At the bottom center of the window are 'OK' and 'Cancel' buttons.

Figure17 –add_conference window

- In this window is necessary to insert the name of the conference author (Field "Author"). Insert the first name and last separated by ";".
- After writing the name click with the left mouse button on the button "add Author". Do this step every time you wish to add more authors.

- In case you wish to remove an author you added previously select the author you wish to remove then click “Remove”.

The screenshot shows a form titled 'add_conference' with fields for Author (First Name;Surname), Title, Book Title, City, Country, Date, Year, and Interval of Pages. A 'Load PDF' button is located below the Date field. To the right of the form, there is a list of authors and dates. The first author is 'asd;dwa' with date 'daw;qwe'. Below it is a 'Remove Author' button. The second author is '1-22-1994' with date '1-11-1997'. Below it is a 'Remove Date' button. A red box highlights the 'Remove Author' and 'Remove Date' buttons, with a double-headed arrow indicating the selection process.

Figure18 – add_conference window, remove author.

- After clicking, the following confirmation message will appear, click “Yes” in case you wish to remove the author or click “No” if you don’t want.

The screenshot shows a confirmation dialog box titled 'Remove'. It contains a yellow warning triangle icon and the text 'Do you really want remove the selected author?'. At the bottom, there are two buttons: 'Sim' (Yes) and 'Não' (No).

Figure19 – Remove author, confirmation message.

- To add the title of the conference fill the field “Title”.
- To add the book title of the conference fill the field “Book Title”.
- To add the city where the conference took place fill the field “City”.
- To add the country where the conference happened fill the field “Country.”
- To add the conference date fill the field “Date” and click “Add Date”.
- Repeat the previous step whenever you wish to add more dates to the conference.
- In case you wish to remove a date you added previously select the date you want to remove then click with the left mouse button in “Remove”.

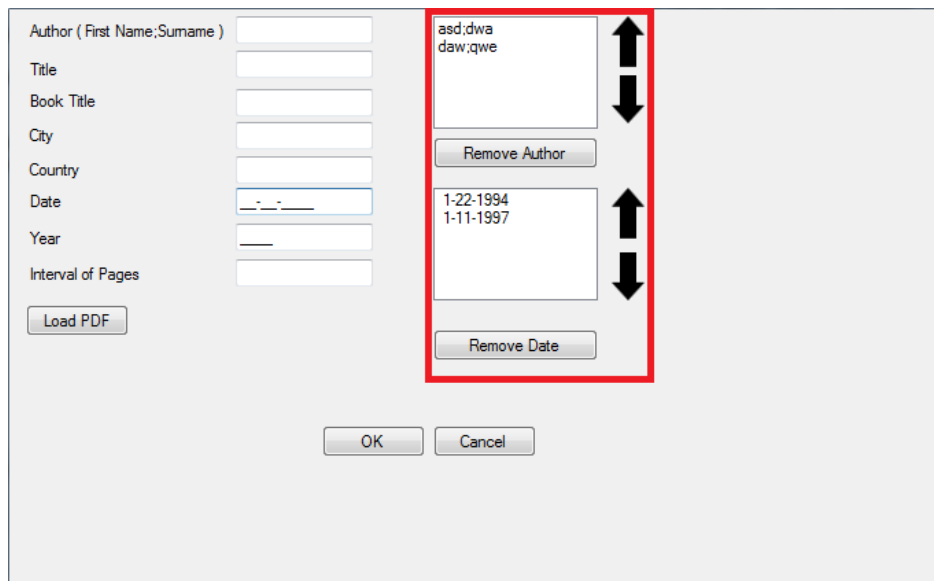

Figure20 – add_conference window, conference date removal.

- To add the year of the conference fill the field “Year”.
- To add the interval of pages fill the fields “Interval of Pages”. The first field corresponds to the first page and the second to the last page.
- To load a PDF click with the left mouse button in “Load PDF”
- After clicking this button the following window will appear, Where you can load the PDF correspondent to the publication. This has to be in a folder on your computer.

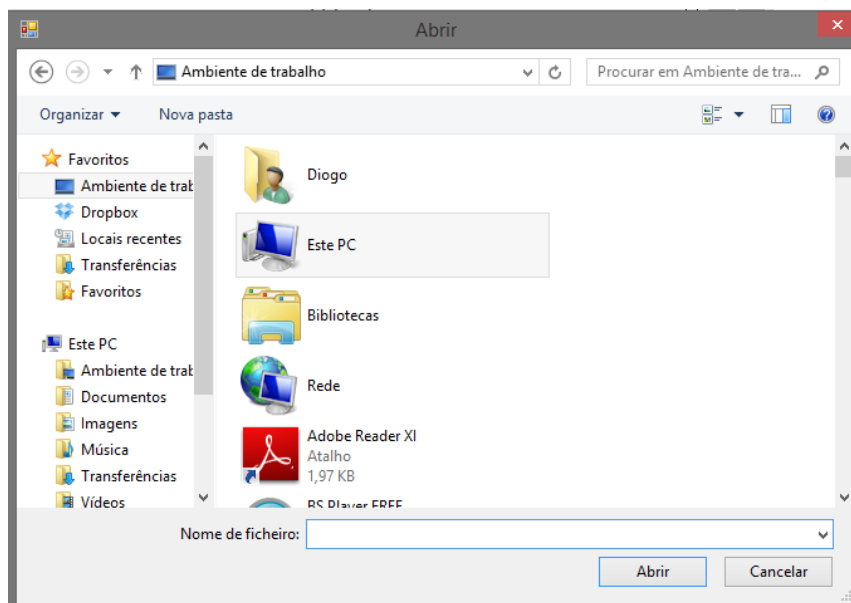

Figure21 – Window to load PDF of a publication of type conference.

- To conclude this process of adding a publication of type conferences simply click with the left mouse button in “OK”.

- You can close this window at any moment by clicking with the left mouse button on the red cross in the upper right corner, clicking “Cancel” or pressing “ESC” on the keyboard.

The screenshot shows a form titled 'add_conference'. On the left, there are input fields for 'Author (First Name;Surname)', 'Title', 'Book Title', 'City', 'Country', 'Date' (with a date picker), 'Year', and 'Interval of Pages'. Below these is a 'Load PDF' button. On the right, there are two text boxes: the top one contains 'asd;dwa' and 'daw;qwe' with a 'Remove Author' button below it; the bottom one contains '1-22-1994' and '1-11-1997' with a 'Remove Date' button below it. At the bottom center, there are 'OK' and 'Cancel' buttons. The 'OK' button is highlighted with a red rectangle.

Figure22 – add_conference window, “OK” button.

- In case you haven’t filled all fields an error message is generated informing the required fields haven’t yet been filled.

The screenshot shows the same 'add_conference' form as Figure 22, but with an error state. The labels for 'Title', 'Book Title', 'City', 'Country', 'Date', 'Year', and 'Interval of Pages' are now red. Below the 'Load PDF' button, a red message says 'Fill the red fields please!'. The 'OK' button is highlighted with a red rectangle.

Figure23 – Obligatory fields – Conference.

3.2.1.5 Add publication of type (“Journal”)

- In case you wish to add a publication of type (“Journal”), click with the left mouse button on the button “Journal”.

Author (First Name;Surname)

Title

Journal

Volume

Issue

Publisher

Year

Interval of Pages (initial;end)

ISSN

Figure24 –add_journal window.

- In this window is necessary to write the author name (“Author” field). Insert the first name and last separated by “;”.
- After having written the name, click with the left mouse button in the button “add Author”. Perform this step every time you wish to add more authors.

- In case you wish to remove an author you previously added, select it then click “Remove”.

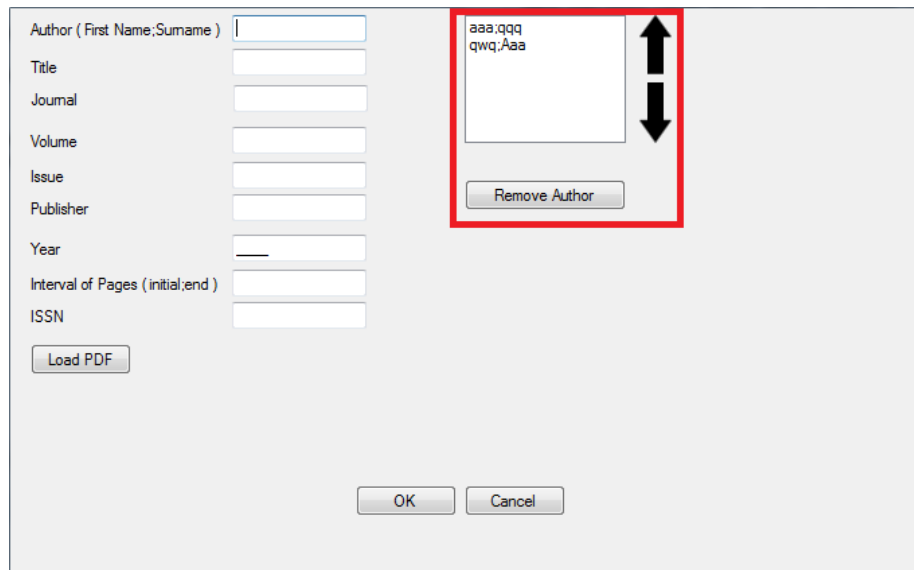

Figure25 – add_journal window, remove author.

- After clicking “remove” the following confirmation message will pop up, where you click “Yes” in case you wish to remove the author or “No” if you don’t.

Figure26 – Remove author, confirmation message.

- To add the title of the publication fill the field “Title”.
- To add the name of the journal of the publication fill the field “Journal”.
- To add the volume of the publication fill the field “Volume”.
- To add the issue of the publication fill the field “Issue”.
- To add the publisher of the publication fill the field “Publisher”.
- To add the year of the publication fill the field “Year”.
- To add the interval of pages of the publication fill the field “Interval of pages”. The first field corresponds to the first page and the second field to the last page.
- To add the ISSN of the publication fill the field “ISSN”.
- To load the PDF click with the left mouse button on the button “Load PDF”.
- After clicking this button the following window will appear, where you can load the PDF correspondent to the publication. This must be in a folder on your computer.

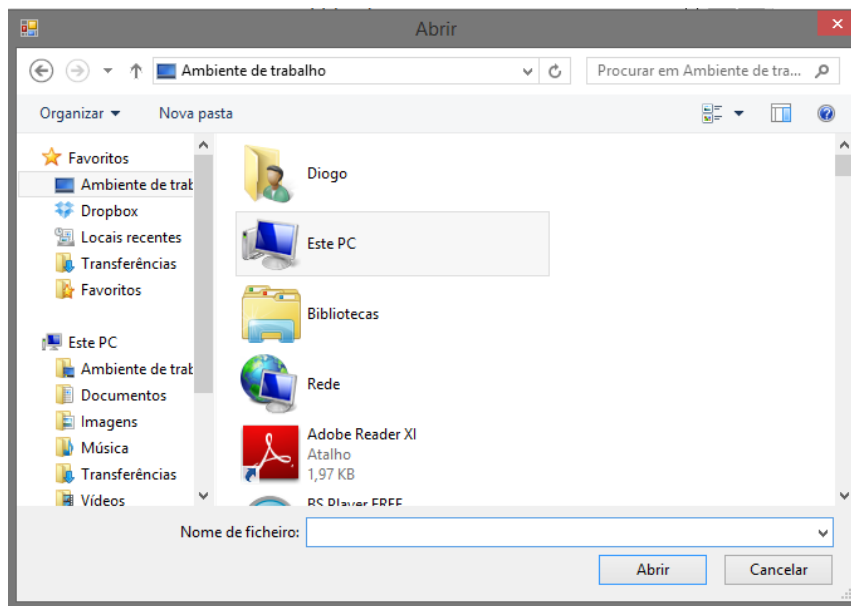

Figure27 – Load PDF window of publication of type “journal”.

- To conclude this process of adding a publication of type “Journal” simply click with the left mouse button in the button “OK”.

Figure 28 - add_journal window, "OK" button

- You can close this window at any time by clicking in the red cross on the upper right corner of this window, clicking “Cancel” or pressing “ESC” on the keyboard.
- In case you haven’t filled all fields an error message appears that forces you to fill them, like the following:

Author (First Name;Surname)	<input type="text"/>	<div>aaa,qqq qwq;Aaa</div> <div>↑ ↓</div>
Title	<input type="text"/>	
Journal	<input type="text"/>	<div>Remove Author</div>
Volume	<input type="text"/>	
Issue	<input type="text"/>	
Publisher	<input type="text"/>	
Year	<input type="text"/>	
Interval of Pages (initial,end)	<input type="text"/>	
ISSN	<input type="text"/>	

Load PDF

Fill the red fields please!

OKCancel

Figure29 – Obligatory fields – “Journal”

3.2.2. Remove publication

- In case you wish to remove a scientific publication, click with the right mouse button on top of the publication you wish to remove then click with the left mouse button in “Delete”.

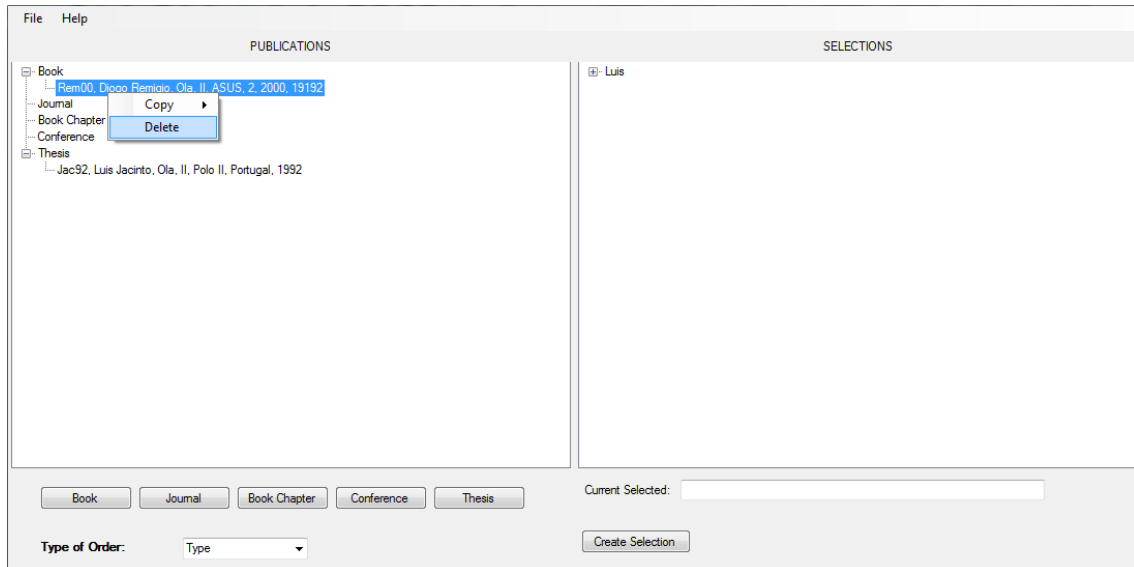

Figure30 – Remove publication

3.2.3. Visualize Publication

- To visualize a scientific publication simply double click on it with the left mouse button.

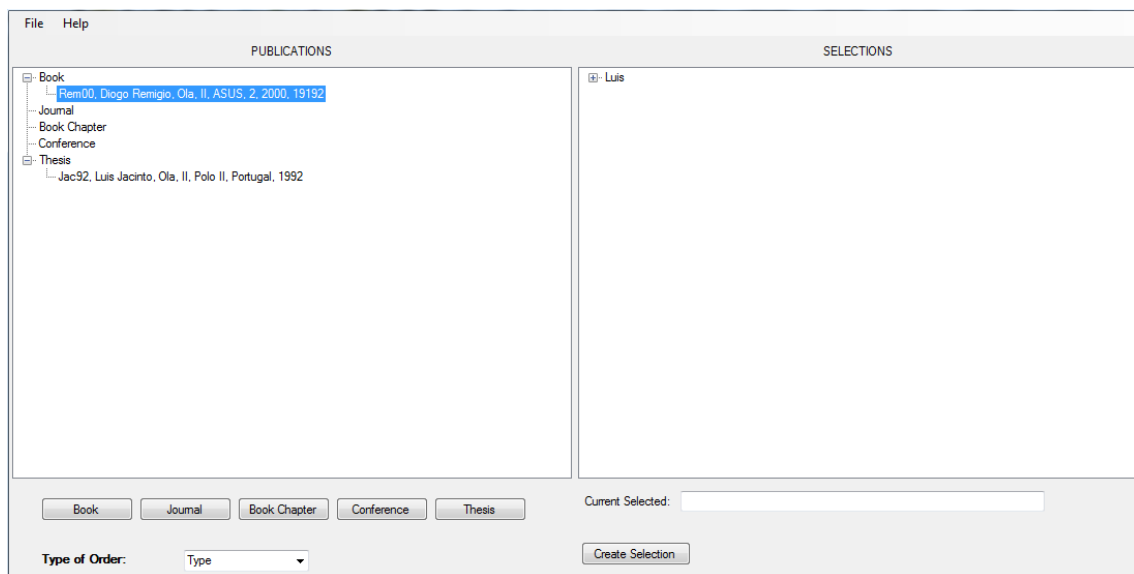

Figure31 – Visualize publication

3.2.4. Copy citation key

- To copy the citation key simply click with the right mouse button on top of the publication you wish to copy the citation key -> copy -> Citation Key

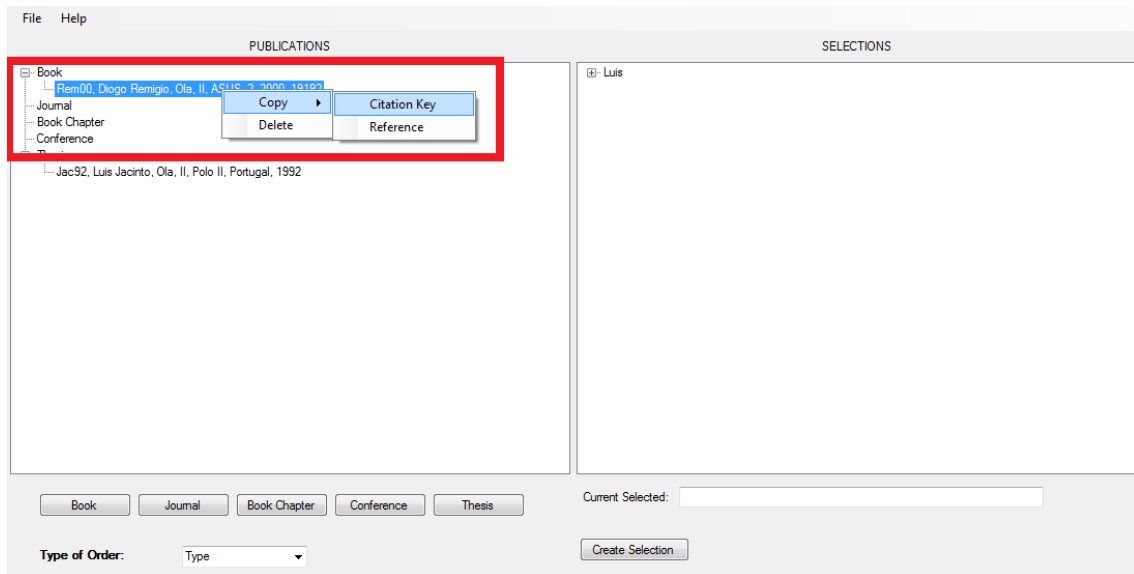

Figure32 – Copy citation key.

3.2.5. Copy publication reference

- To copy the reference simply click with the right mouse button on top of the publication you wish to copy the citation key -> copy -> Reference.

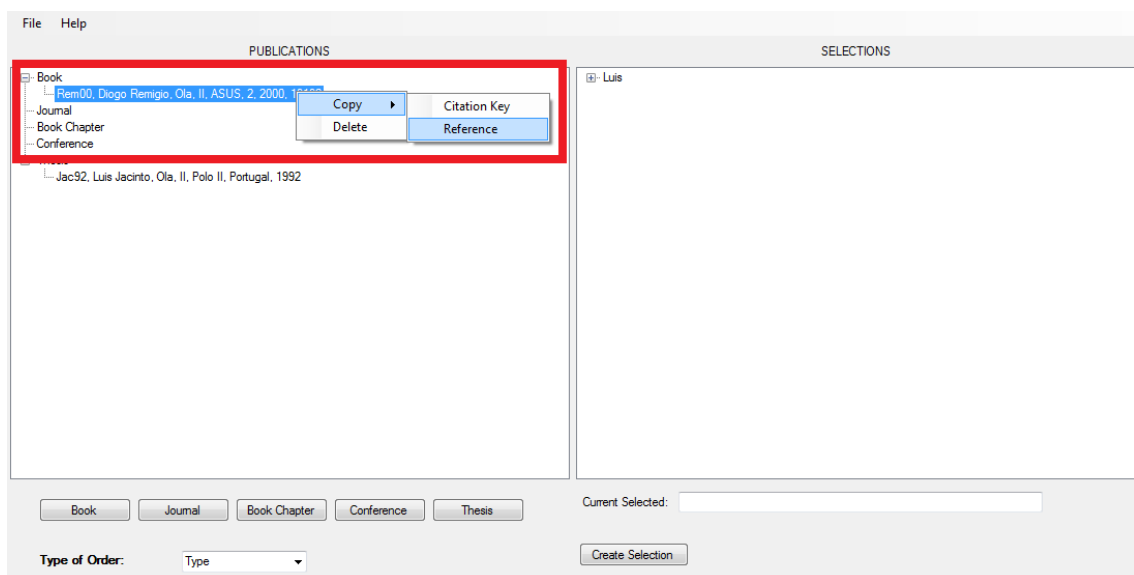

Figure33 – Copy publication reference.

3.2.6. Sorting publications

In this section we will present how to sort publications. You may sort by alphabetic order of the last letter of the last name of the first author, sort by year or sort by type of publication.

3.2.6.1 Sorting by year

To sort the publications by year select “year” on the “Type of Order” submenu, like the following:

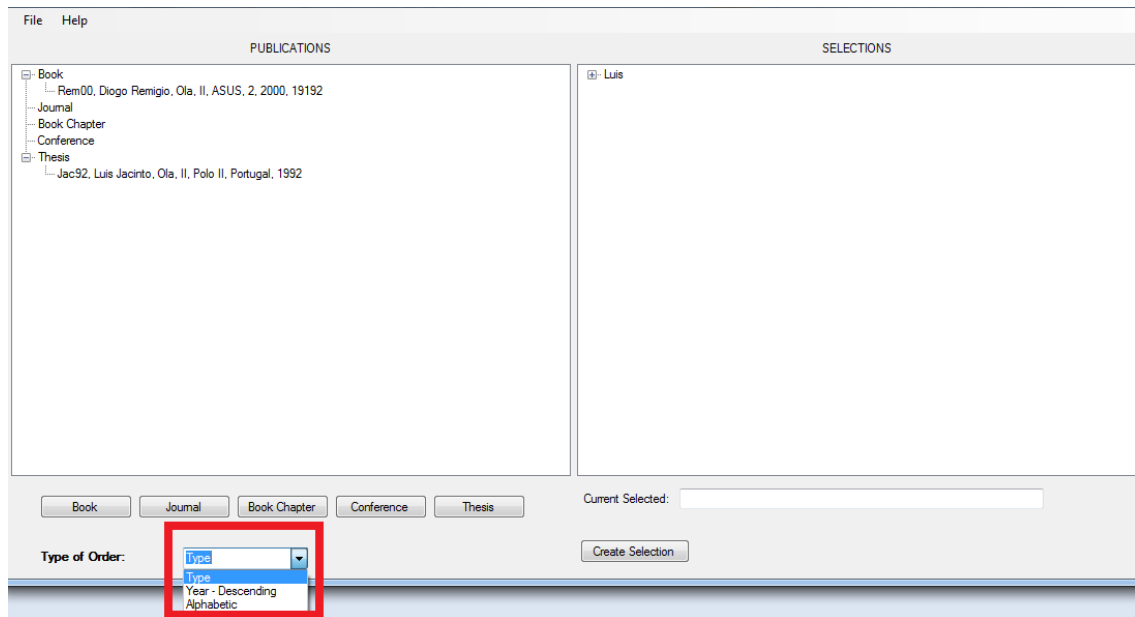

Figure34 – Sorting by year.

This will result (example):

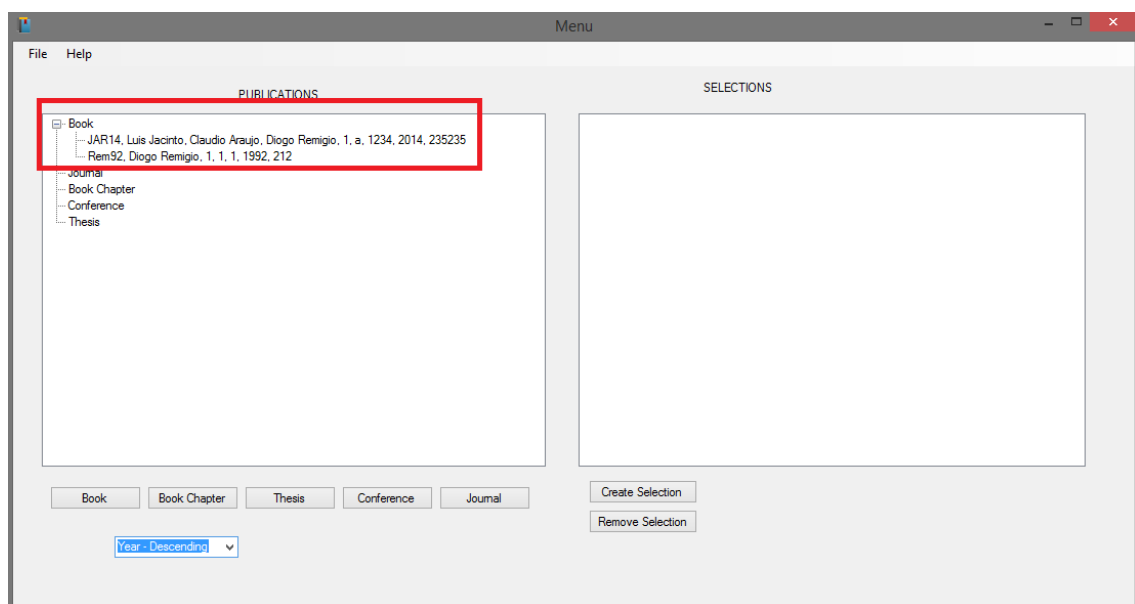

Figure35 – Example of publications sorted by year.

3.2.6.2 Sorting by alphabetic order of the last letter of the last name of the first author

To sort by alphabetic order of the last letter of the last name of the first author, select “Alphabetic” the same way as mentioned above:

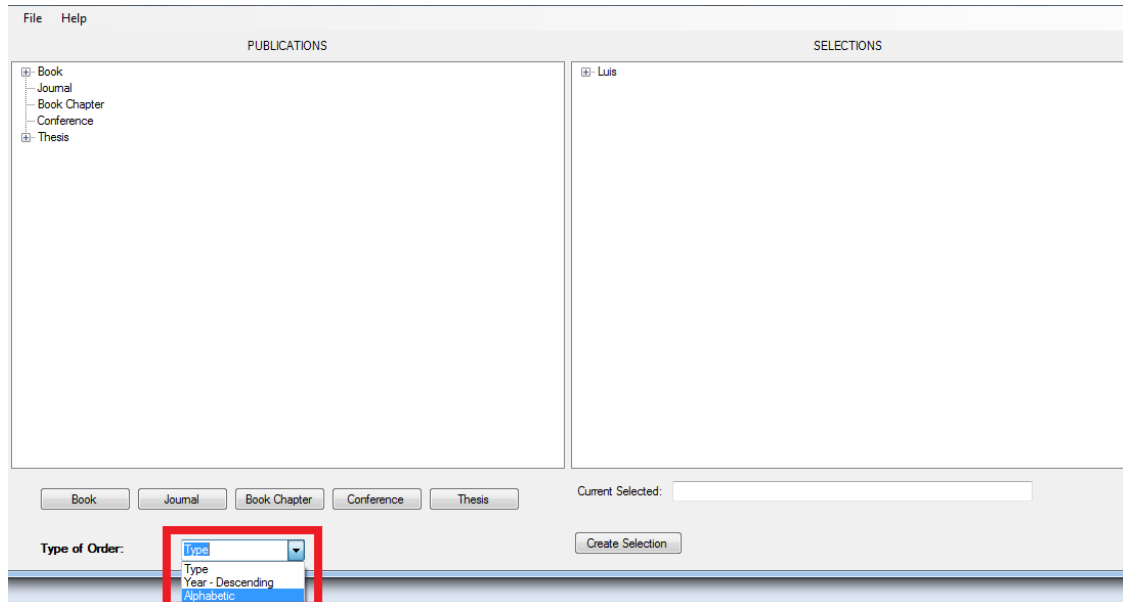

Figure36 – Sorting by alphabetic order of the last letter of the last name of the first author.

Having done the previous step (example):

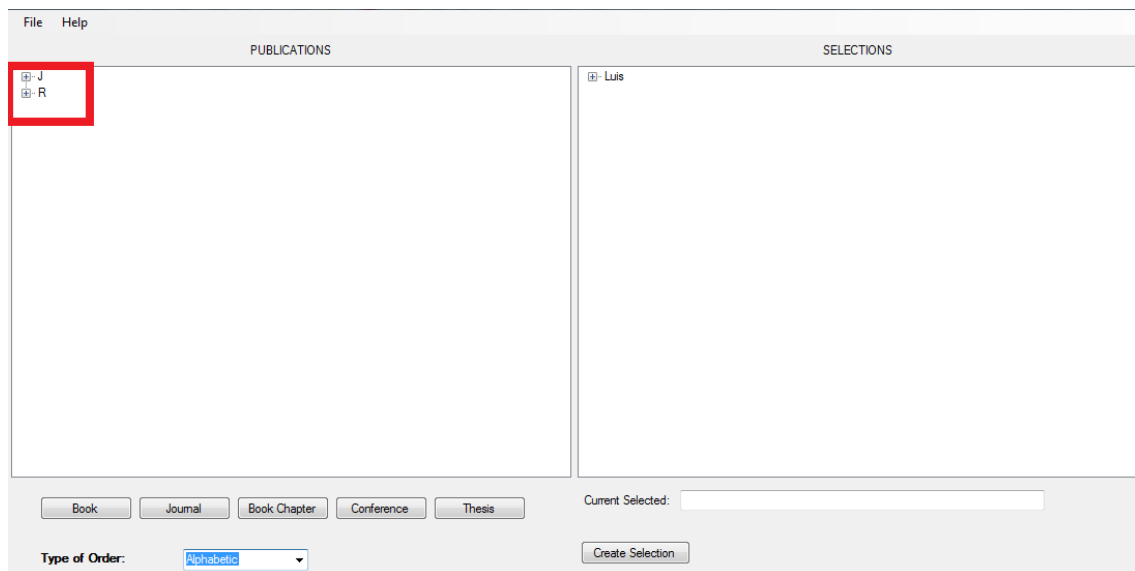

Figure37–Example of sorting by alphabetic order of the last letter of the last name of the first author.

3.2.6.3 Sorting by type of publication

By (default) publications are ordered by type. Although if you wish to order by type again the process is the same as mentioned above only now you have to select “Type”.

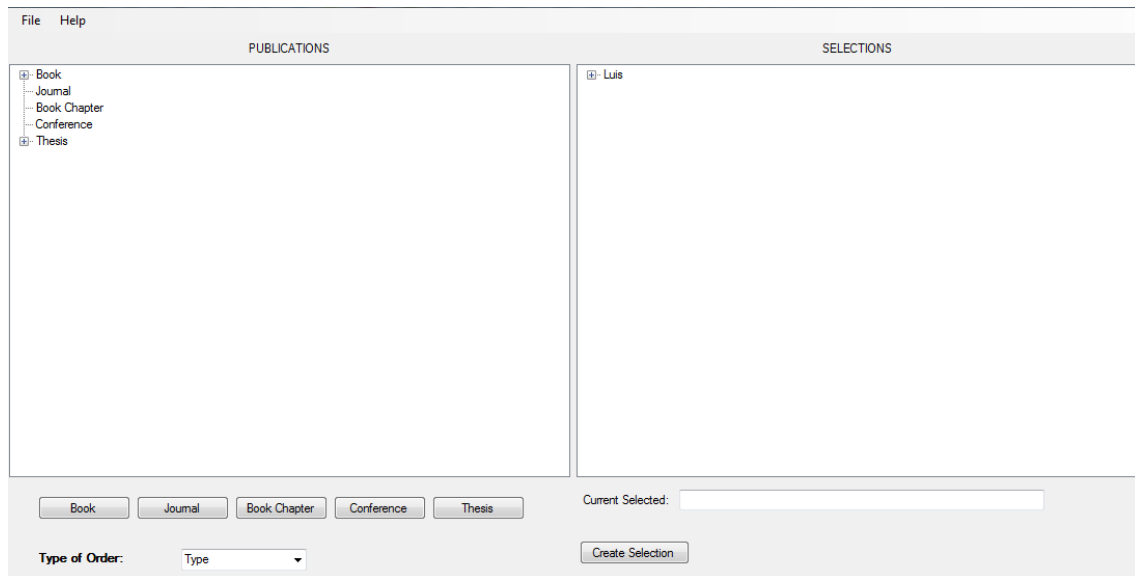

Figure38 – Sorting by type of publication.

3.3. Manage selections

3.3.1. Visualize selections

You may see existing selections on the panel “SELECTIONS”.

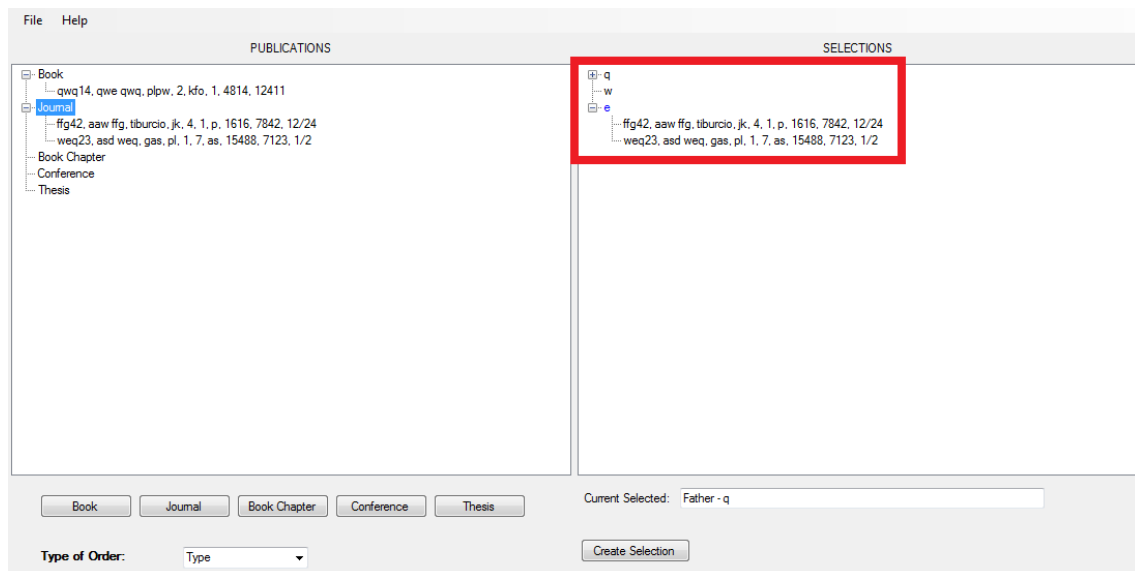

Figure39 – Visualize selections.

3.3.2. Creating a selection of publications

- To create a selection of publications simply click with the left mouse button on the button “*Create Selection*”.

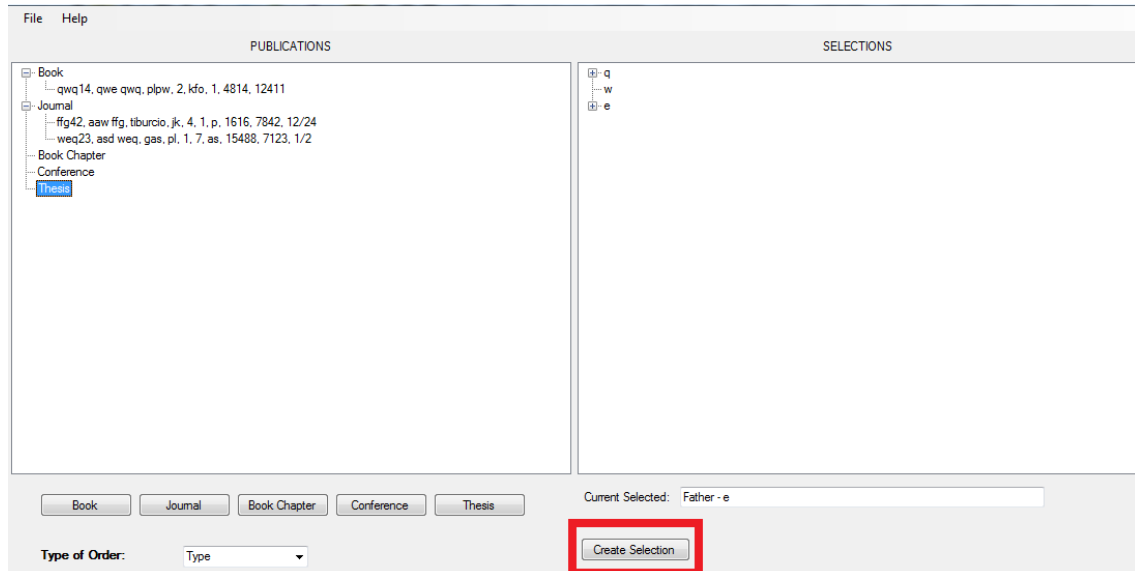

Figure40 – Creating a selection of publications.

- After clicking “Create Selection” the following will appear:

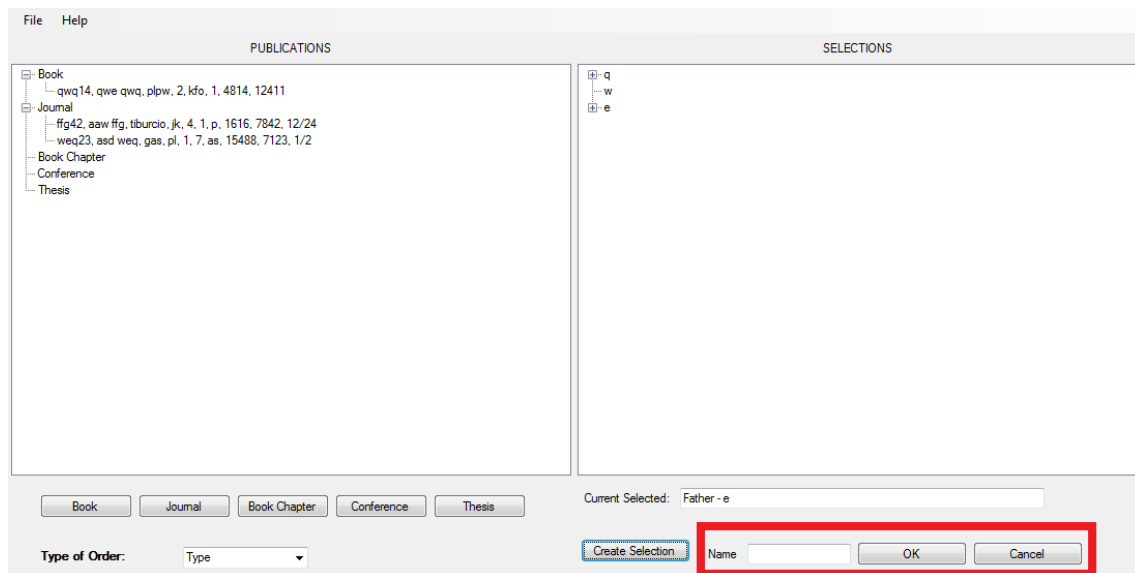

Figure41 – Insert the name of the selection

- On the field “Name” write the name you wish to give to the selection, after writing the name click with the left mouse button on the button “OK”.
- After having performed the previous step the new selection will be created as you can see in the example below, for the name “Robotica”:

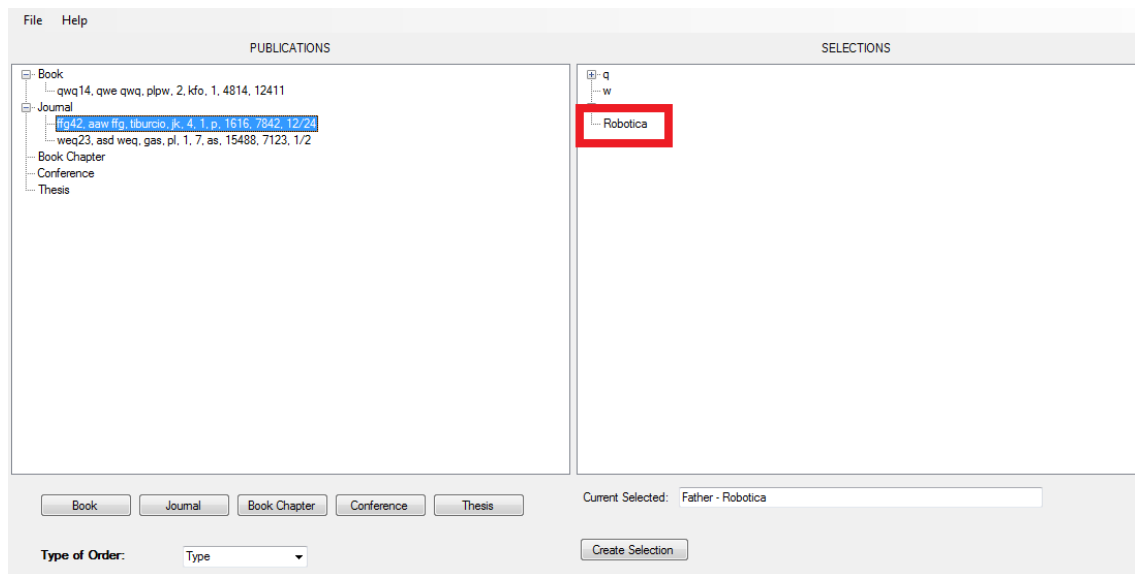

Figure42 – Main window after a new selection has been created.

The last step is how to associate a set of publications to a set of selections.

3.3.3. Associate a publication to a selection

- To associate a set of publications to a selection simply drag the selected publications present in the panel “PUBLICATIONS” to the desired selection present in the panel “SELECTIONS”.

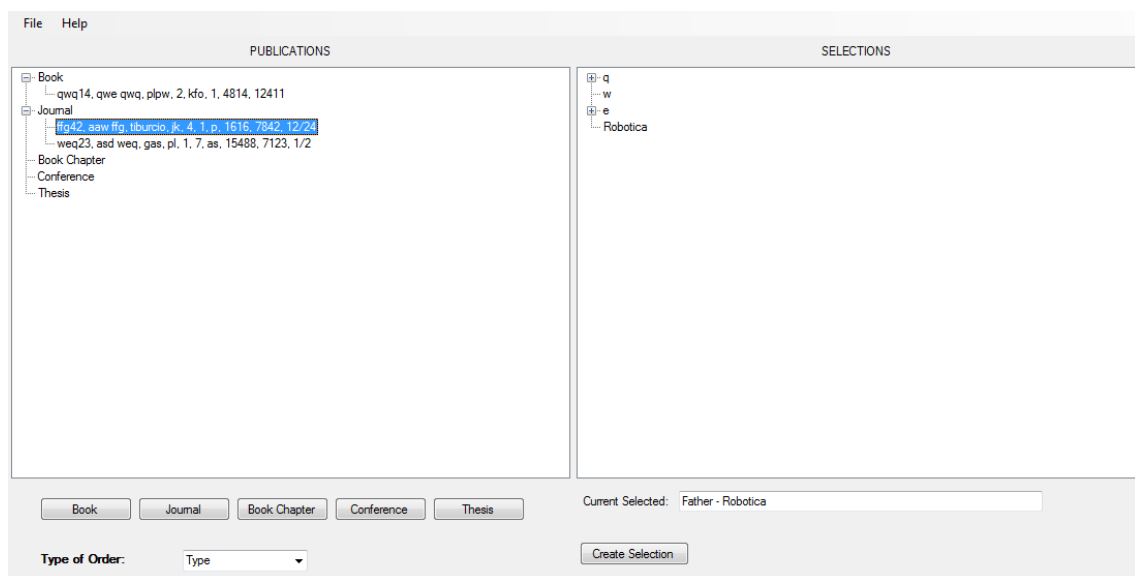

Figure43 – Associate publications to a selection (note: the desired drag action couldn't be captured).

- After having done the previous step:

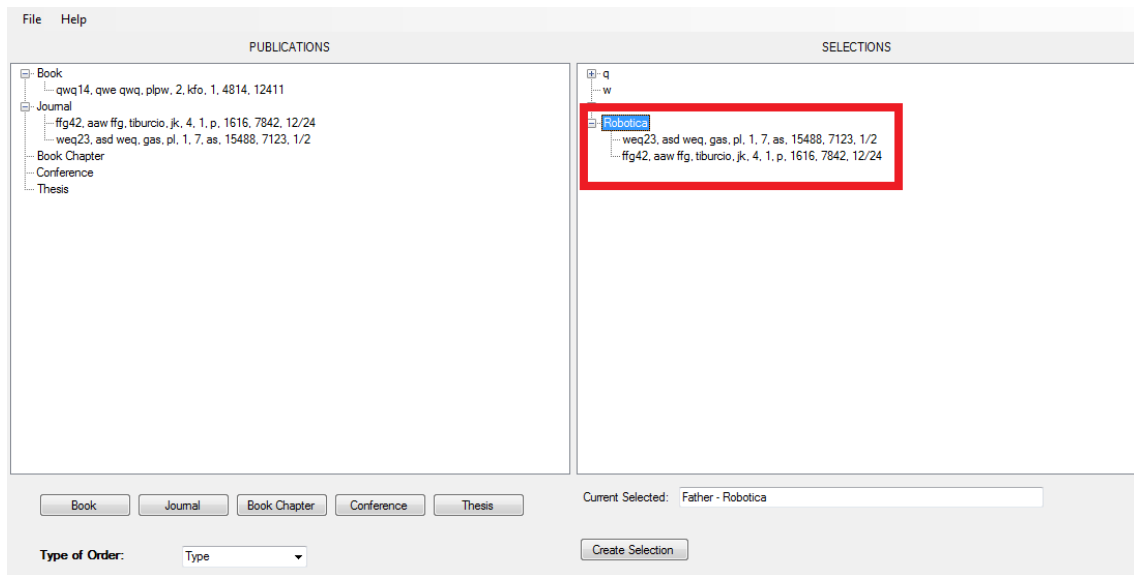

Figure44 – Results after having dragged 2 publications (example).

3.3.4. Eliminate selections

To remove a selection click with the right mouse button on top of it and then left click “Delete”.

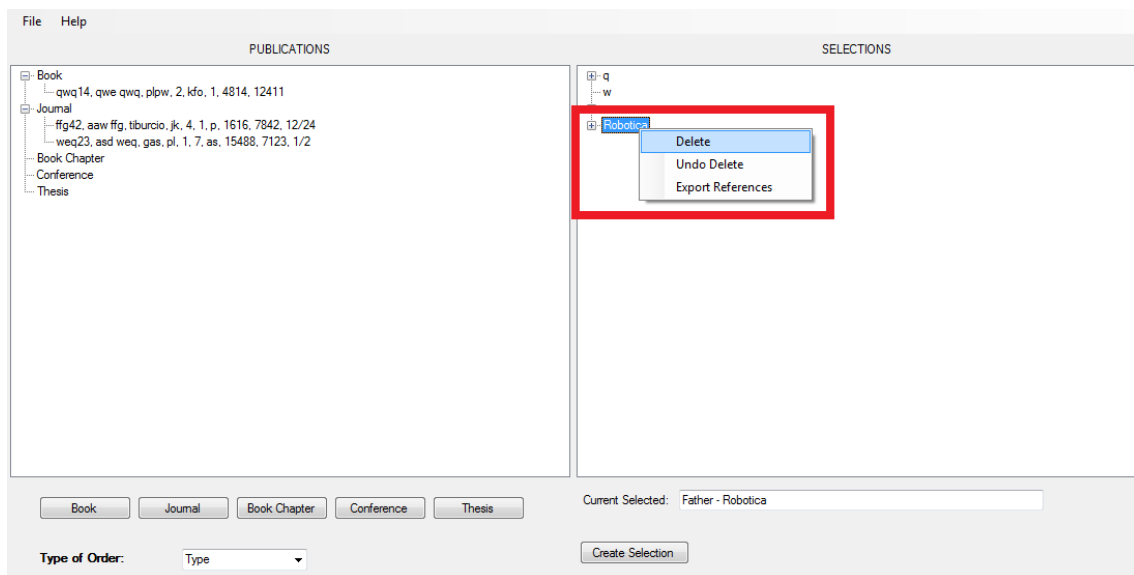

Figure45–Eliminating a selection.

- After clicking delete, the following confirmation message will appear:

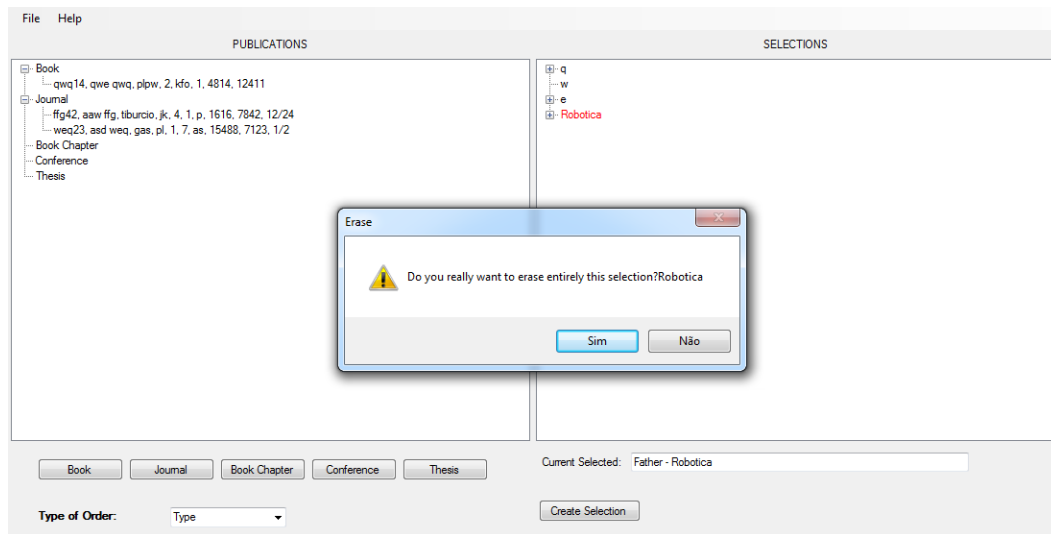

Figure46 –Confirmation window for removing a selection.

- If you chose “Yes” the selection deleted will no longer appear like in this example:

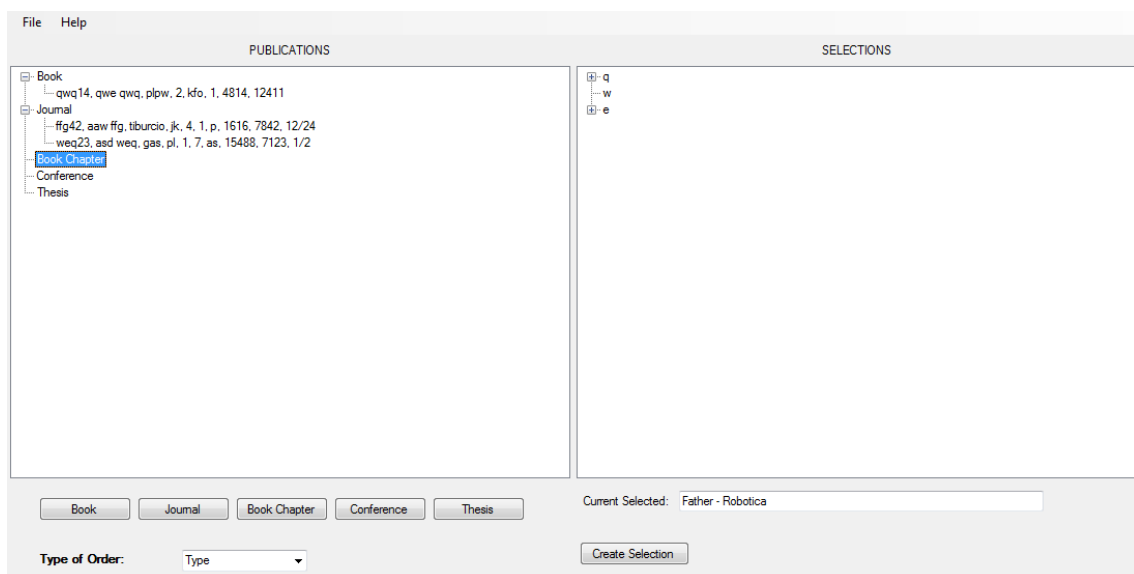

Figure47- Main window after having confirmed the deletion (example).

3.3.5. Export References

- To export references, click with the right mouse button over the selection and select “Export References” like the following image:

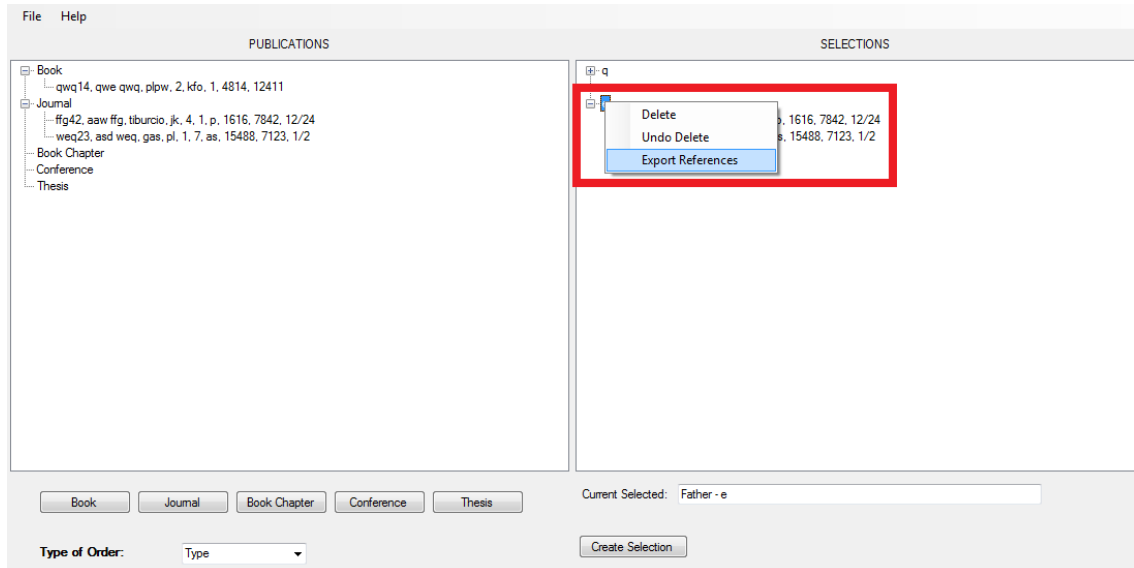

Figure 51 – Export references.

- After this select the name:

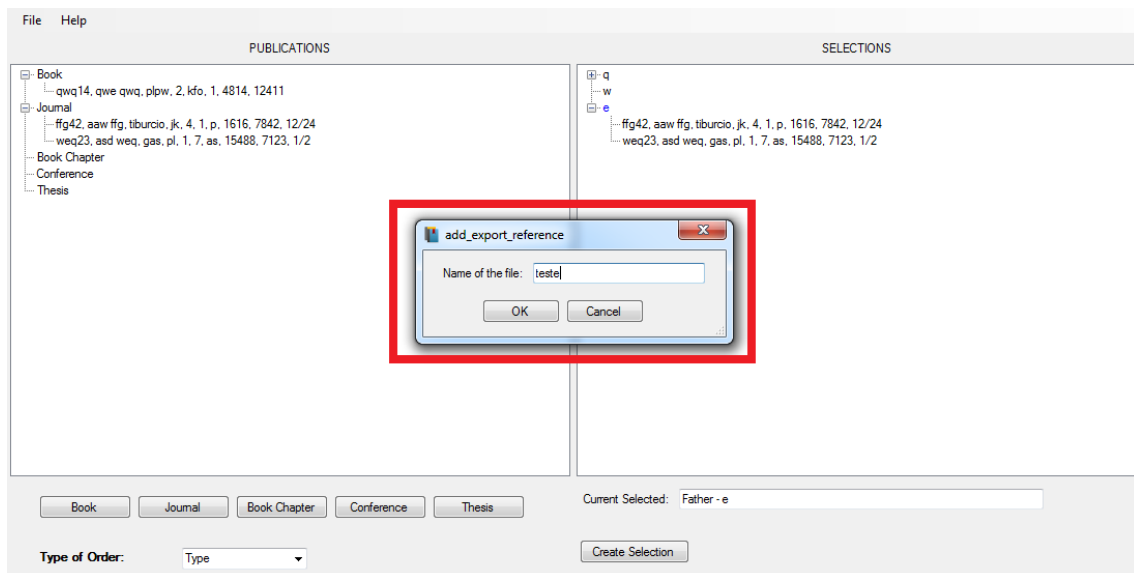

Figure 52 – Export reference, select name.

- A success message should appear:

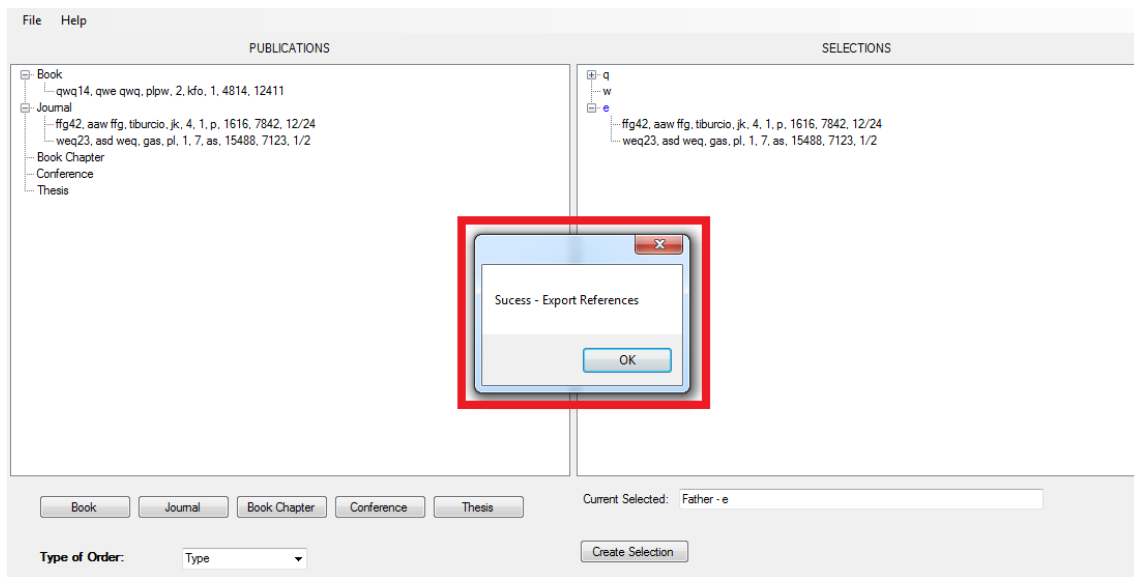

Figure 53 –Export References, success message.

3.3.6. Removing a publication in a selection

To remove a publication of a selection simply click with the right mouse button on the desired publication and then select “Delete”.

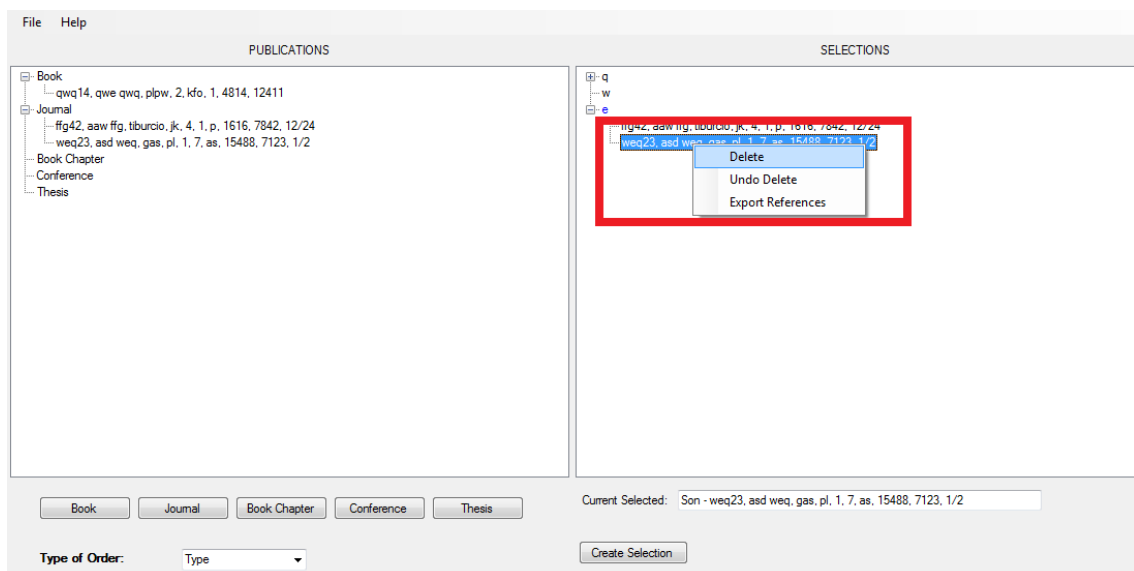

Figure484 – Remove publication of a selection.

- After having done the previous step the publication will appear in red.

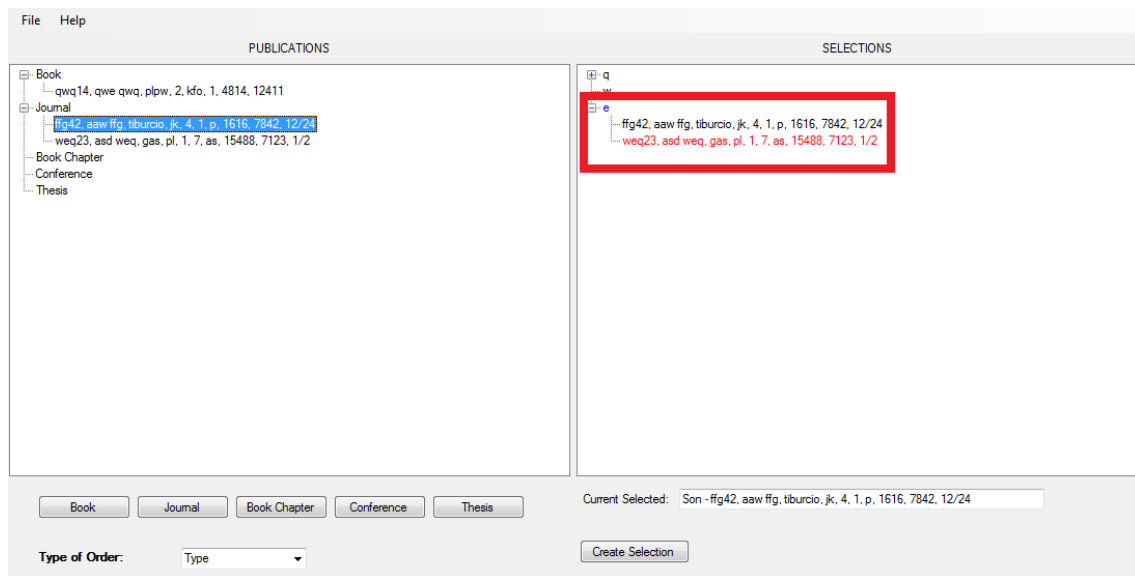

Figure495 – Removing a publication in a selection (red).

- If the node where the publication resides, is minimized and then expanded again the publication disappears :

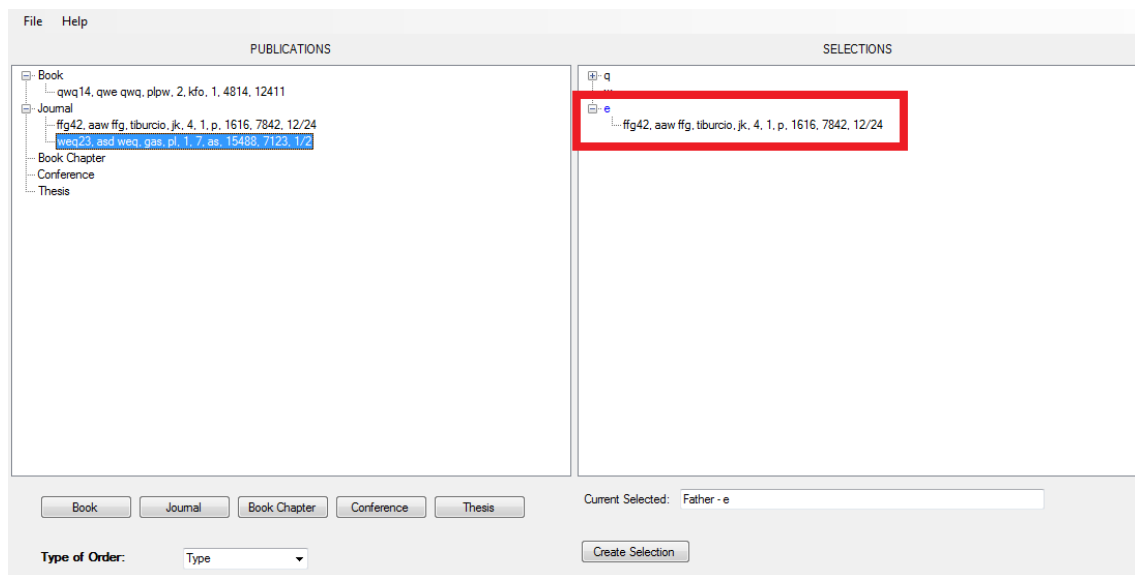

Figure56 – Publication being removed in a selection (example).

3.4 Close the application

To close the application simply click on the red cross in the upper right corner.

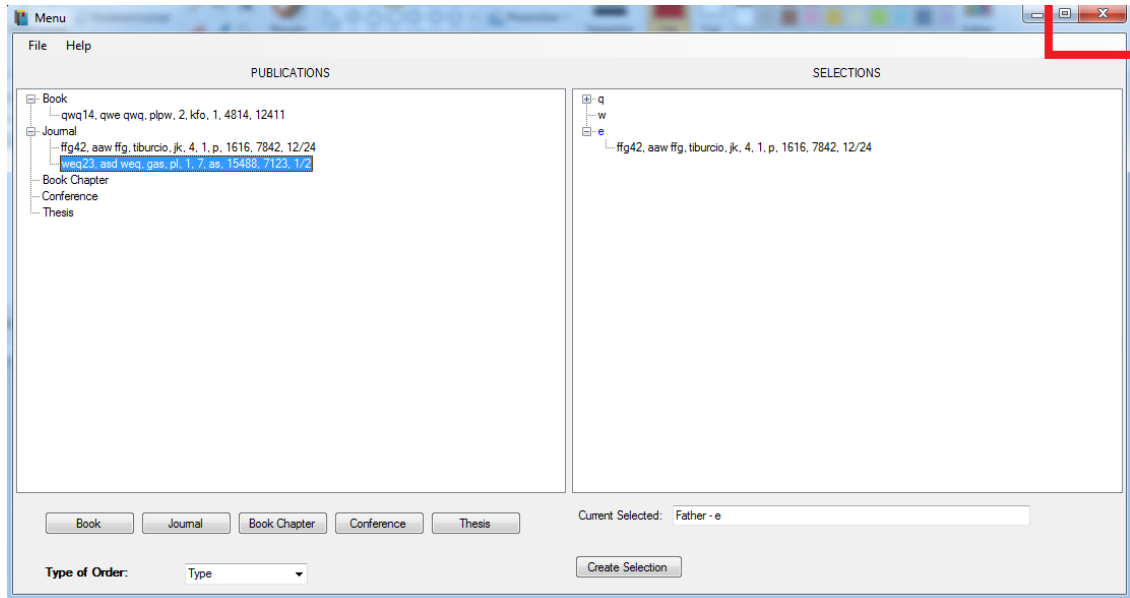

Figure57 – Closing the application

Another way to close the application is:FILE -> Exit

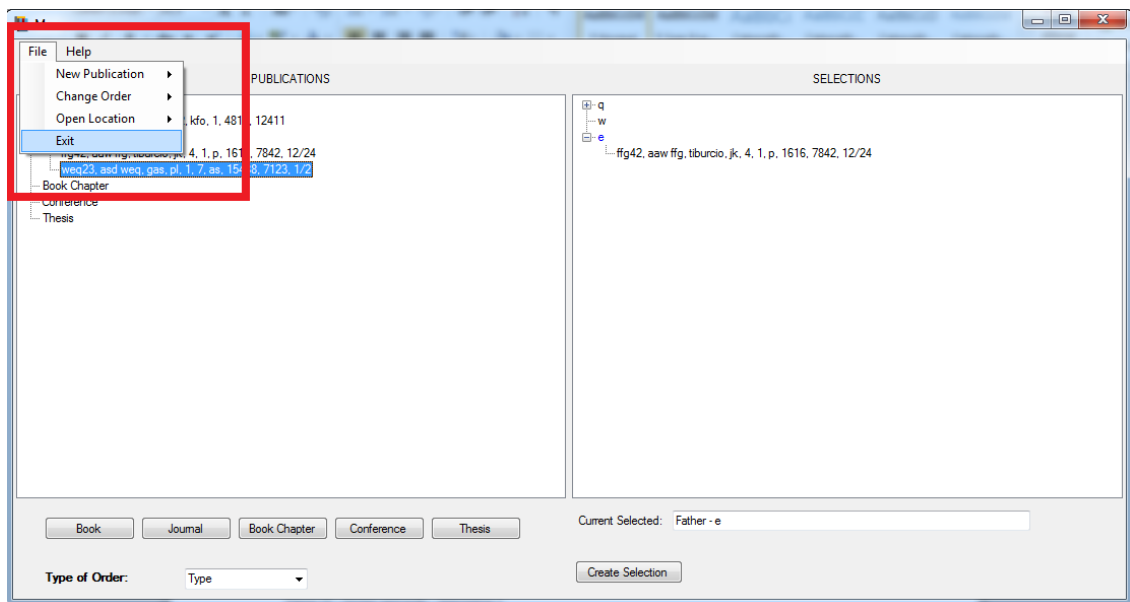

Figure508 – Closing the application – second way

After having done any of the previous steps the following confirmation message will appear:

Figure59 – Confirmation message to closing the program.

Note: As said before the language in which the “Yes” and “No” button appears depends on the operative system native language all captures done previously were performed on a computer with Portuguese native language.

3.5. Help

Clicking Help ->About will pop up a window with the names of the software development team, along with a cool tune.

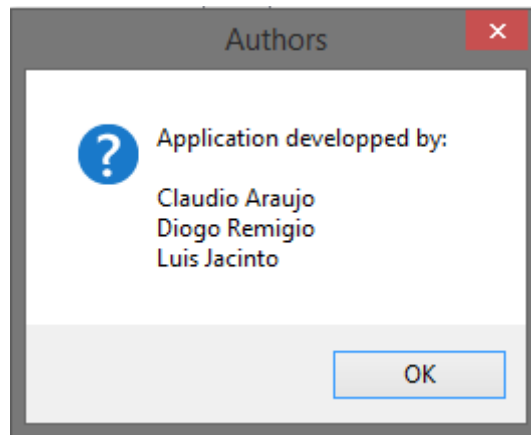

Figure 60 –Help window.

4. Help and support

These are the closing words of this manual. We hope it has been useful in any way.
